- 11.10.3 Suspend Report

11.11 PTA

- 11.11.1 Member
- 11.11.2 Meeting

INTRODUCTION

We are glad to announce e-School (School Management System), a Web based application to handle the entire school system. During the implementation of e-School as a full ERP for school administration and interaction, we strongly realized the need of a simple yet effective version of e-School, which should preferably run on MS SQL server without losing the scalability, flexibility and its core strength of user friendliness with strong security of your valued database.

e-School is a powerful, fully Web based School Management System that is easy to use, fast to implement and effective to mobilize the school management system in a great way.

GETTING STARTED

To start working with School Management System software, user has to type following URL (Uniform Resource Locator) on the browser's Address bar –

<http://localhost/eschool/login.aspx> as shown in figure 1.

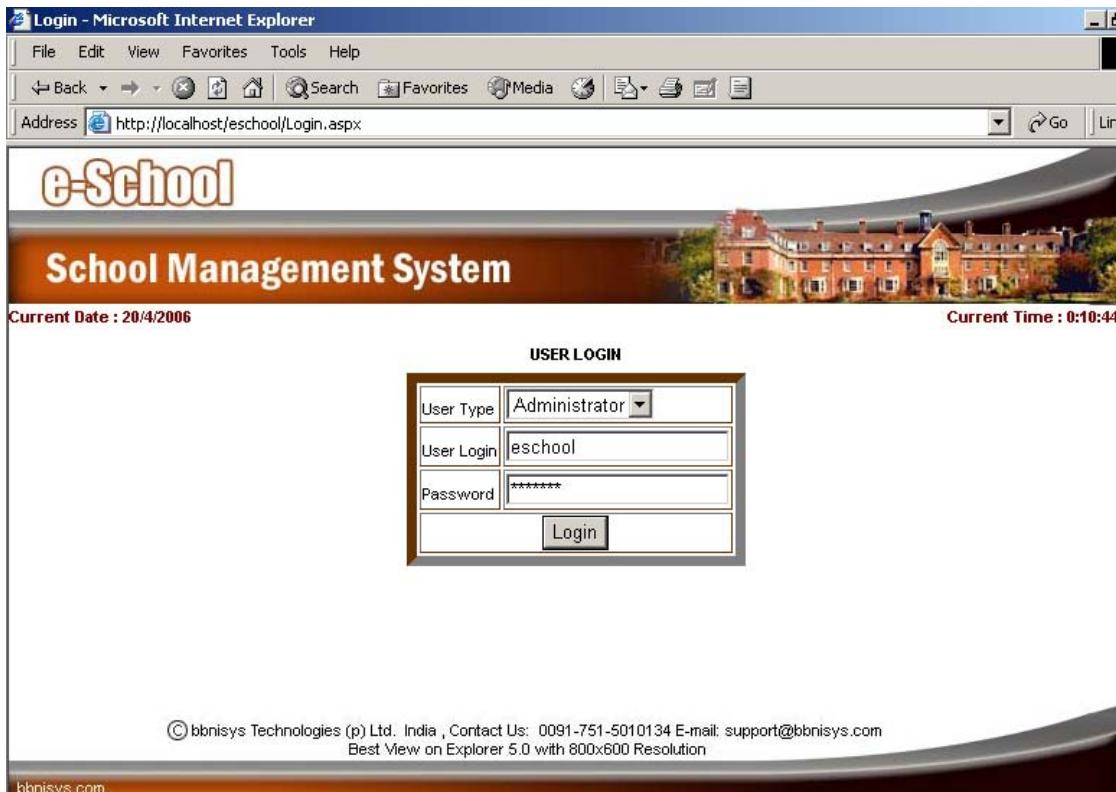

Figure 1

Now user has to select user type (Administrator, Teacher, Staff...) and then enter Login Name and Password to Login into the Software.

After entering correct User Name and Password, Main Screen appears as shown in figure 2.

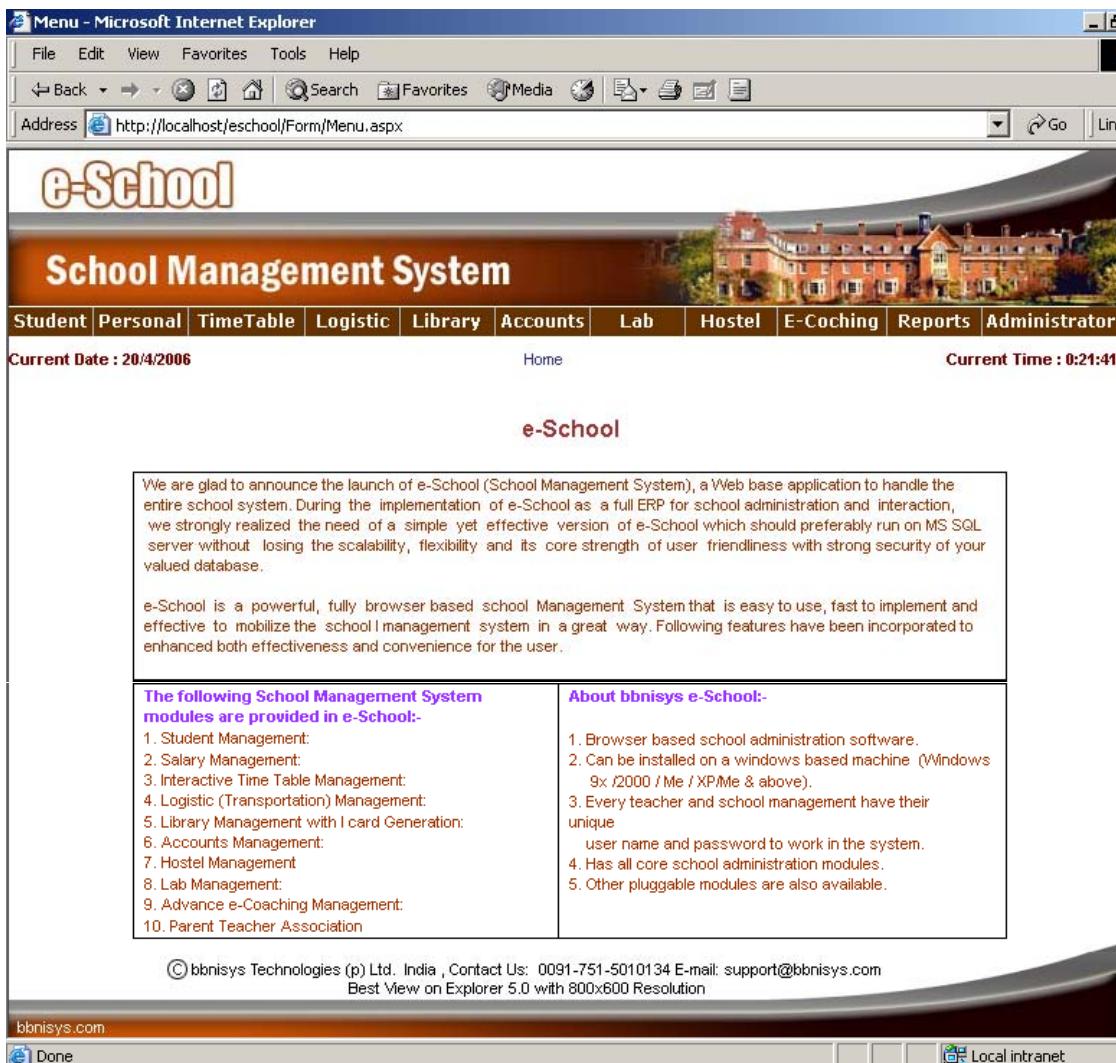

Figure 2

1. Student Management

In this module there are 8 sub modules. These are-

1.1 Admission

1.1.1 Student Registration

In this module user can enter details of new student getting registered in the school. The information needed for student registration is shown in figure 3. After entering all the details of student, user has to click SAVE button to save the record. If user wants to clear the inputted values, user has to click RESET button.

The screenshot shows the 'e-School School Management System' interface. At the top, there's a banner with the 'e-School' logo and a photograph of a school building. Below the banner, the main menu includes links for Student, Personal, TimeTable, Logistic, Library, Accounts, Lab, Hostel, E-Coaching, Reports, and Administrator. The current date is listed as 20/4/2006, and the current time is 0:44:46. The main content area is titled 'STUDENT REGISTRATION'. A note at the top of the form says 'asterisk (*) fields are mandatory'. The form consists of a grid of 18 input fields arranged in four rows and four columns. The fields include dropdown menus for Class, Stream, Category, Gender, and various other details like Name, Date of Birth, Address, and Phone Number. Some fields have asterisks indicating they are required. At the bottom of the form are 'Save' and 'Reset' buttons.

Figure 3

1.1.2 Gate Pass

In this module user can view a gate pass report of the students. The information needed for Gate Pass entry is shown in figure 4. After filling all the information, user has to click the Print Preview button to view the Gate Pass Report.

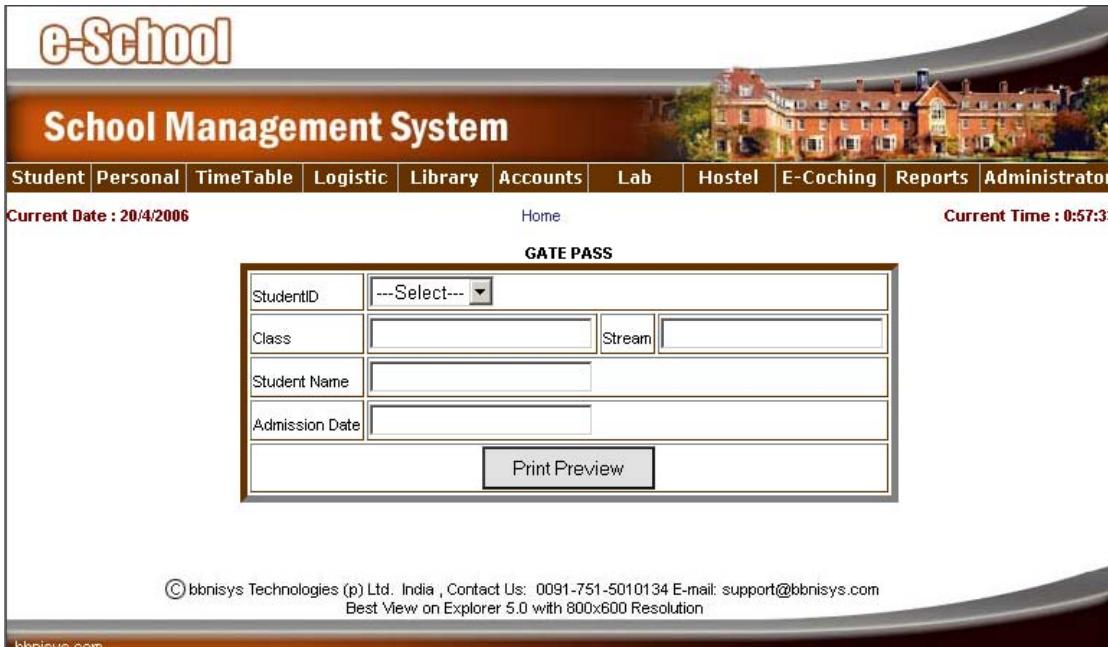

Figure 4

1.1.3 Subject Decision

In this module user can define subjects in various classes. The information needed for Subject decision is shown in figure 5. After entering subject for a class, user has to press SAVE button to save the record. If user wants to clear the inputted values, user has to click RESET button.

Figure 5

1.1.4 Fees Decision

In this module user can define fees for various classes. The information needed for fees decision is shown in figure 6. After entering fees for a class, user has to press SAVE button to save the record. If user wants to clear the inputted values, user has to click RESET button.

The screenshot shows the 'e-School School Management System' interface. At the top, there is a navigation bar with links: Student, Personal, TimeTable, Logistic, Library, Accounts, Lab, Hostel, E-Coaching, Reports, and Administrator. Below the navigation bar, the current date is listed as 'Current Date : 20/4/2006' and the current time is 'Current Time : 1:10:38'. In the center, there is a 'FEES DECISION' form. The form contains three fields: 'Class' (dropdown menu), 'Stream' (dropdown menu), and 'Monthly Fees' (text input field with an asterisk). Below the form are two buttons: 'Save' and 'Reset'. A note above the form states: 'Asterisk (*) fields are mandatory'. At the bottom of the page, there is a copyright notice: '© bbnisys Technologies (p) Ltd. India , Contact Us: 0091-751-5010134 E-mail: support@bbnisys.com Best View on Explorer 5.0 with 800x600 Resolution' and the website address 'bbnisys.com'.

Figure 6

1.2 Daily Activity

1.2.1 Attendance

In this module user can enter student's attendance. The information needed for student attendance is shown in figure 7. After entering attendance for a class, user has to press SAVE button to save the record. If user wants to clear the inputted values, user has to click RESET button.

The screenshot shows the 'e-School School Management System' interface. At the top, there's a navigation bar with links for Student, Personal, TimeTable, Logistic, Library, Accounts, Lab, Hostel, E-Coaching, Reports, and Administrator. Below the navigation bar, the current date is listed as 'Current Date : 20/4/2006' and the current time as 'Current Time : 1:20:33'. The main content area is titled 'STUDENT ATTENDANCE SHEET'. It contains several input fields: 'Student ID' with a dropdown menu, 'Total Attendance' with a text input field, 'Student Name' with a text input field, 'Class Name' with a text input field, 'Stream' with a text input field, 'Teacher's Name' with a dropdown menu, 'Today Date' with a text input field and a calendar icon, 'Attendance Status' with a dropdown menu, and 'Subject' with a text input field. At the bottom of the form are 'Save' and 'Reset' buttons. A copyright notice at the bottom of the page reads: '© bbnisys Technologies (p) Ltd. India , Contact Us: 0091-751-5010134 E-mail: support@bbnisys.com Best View on Explorer 5.0 with 800x600 Resolution'.

Figure 7

1.2.2 Leave

In this module user can enter student's leave record. In this module user can define fees for various classes. The information needed for student leave is shown in figure 8. To fill leave details for a desired student, user can search the student either by name or by class. For this after entering student name or by selecting class, user has to click on SEARCH button. After entering leave details, user has to press SAVE button to save the record. If user wants to clear the inputted values, user has to click RESET button.

The screenshot shows the 'e-School School Management System' interface. The layout is similar to Figure 7, with a navigation bar, date/time, and a 'STUDENT LEAVE' form. The 'STUDENT LEAVE' form includes fields for 'Student Name' and 'Class' with a dropdown menu, and a 'Search' button. Below this is a section titled 'Student Leave Details :-' containing fields for 'Student ID', 'Name', 'Class', 'Stream', 'Date From' (with a calendar icon), 'Date To' (with a calendar icon), and 'Leave Type'. At the bottom of the form are 'Save' and 'Reset' buttons. A copyright notice at the bottom of the page reads: '© bbnisys Technologies (p) Ltd. India , Contact Us: 0091-751-5010134 E-mail: support@bbnisys.com Best View on Explorer 5.0 with 800x600 Resolution'.

Figure 8

1.3 Examination

1.3.1 Assignment

In this module user can enter student's assignments status. The information needed for student assignment is shown in figure 9. After entering assignment details, user has to press SAVE button to save the record. If user wants to clear the inputted values, user has to click RESET button.

The screenshot shows the 'e-School School Management System' interface. At the top, there is a banner with the text 'e-School' and 'School Management System'. Below the banner, a navigation menu includes links for Student, Personal, TimeTable, Logistic, Library, Accounts, Lab, Hostel, E-Coaching, Reports, and Administrator. The current date is listed as 'Current Date : 20/4/2006' and the current time as 'Current Time : 1:37:38'. A central form titled 'STUDENT ASSIGNMENT' contains fields for Student ID (dropdown), Student Name (text input), Class Name (text input), Stream (text input), Teacher Name (dropdown), Subject (text input), Assignment No. (dropdown), Assignment Status (dropdown), Assignment Submission Date (text input with calendar icon), Save (button), and Reset (button). At the bottom of the page, there is a copyright notice: '© bbnisys Technologies (p) Ltd. India , Contact Us: 0091-751-5010134 E-mail: support@bbnisys.com'.

Figure 9

1.3.2 Marks Entry

In this module user can enter student's marks. The information needed for student's marks is shown in figure 10. After entering student marks, user has to press SAVE button to save the record. If user wants to clear the inputted values, user has to click RESET button.

The screenshot shows the 'e-School School Management System' homepage. At the top, there's a navigation menu with links: Student, Personal, TimeTable, Logistic, Library, Accounts, Lab, Hostel, E-Coaching, Reports, and Administrator. Below the menu, it displays 'Current Date : 21/4/2006', 'Home', and 'Current Time : 0:30:53'. The main content area is titled 'STUDENT MARKS' and contains a form with the following fields:

StudentID	---Select---	
Student Name		
Class		Stream
Teacher Name	---Select---	Subject
Exam	---Select---	Marks
<input type="button" value="Save"/> <input type="button" value="Reset"/>

Figure 21

2. Employee Management Module

In this module there are 6 sub modules. These are-

2.1 Employee detail

In this module user can enter details of new employee. Employee can be a Teaching Staff or Non Teaching Staff. User has to select one of them. The information needed for employee registration is shown in figure 22. After entering all the details of employee, user has to click SAVE button to save the record. If user wants to clear the inputted values, user has to click RESET button.

The screenshot shows the 'e-School School Management System' interface. At the top, there's a navigation bar with links for Student, Personal, TimeTable, Logistic, Library, Accounts, Lab, Hostel, E-Coaching, Reports, and Administrator. Below the navigation bar, the current date is listed as 'Current Date : 21/4/2006' and the current time as 'Current Time : 2:44:52'. The main content area is titled 'EMPLOYEE DETAILS' and contains a form for entering employee information. The form includes fields for Staff Type (Teaching Staff or Non Teaching Staff), Designation (dropdown menu), Name (text input), Qualification (text input), Permanent Address (text input), Pin Code (text input), Country (dropdown menu), State (dropdown menu), City (dropdown menu), Local Address (text input), Pin Code (text input), Country (dropdown menu), State (dropdown menu), City (dropdown menu), Email-Id (text input), Mobile No (text input), Phone No (text input), Subject Taken (dropdown menu), Experience (dropdown menu), and Save/Reset buttons. A note at the bottom of the form states: 'asterisk (*) fields are mandatory'. At the very bottom of the page, there's a copyright notice: '© bbnisys Technologies (p) Ltd. India , Contact Us: 0091-751-5010134 E-mail: support@bbnisys.com Best View on Explorer 5.0 with 800x600 Resolution'.

Figure 22

2.2 Employee Daily Attendance

In this module user can enter daily attendance of every employee. The information needed for employee attendance is shown in figure 23. After entering employee attendance, user has to click SAVE button to save the record. If user wants to clear the inputted values, user has to click RESET button.

The screenshot shows the 'e-School School Management System' interface. The layout is similar to Figure 22, with a navigation bar at the top and a 'EMPLOYEE ATTENDANCE' form in the center. The form consists of three dropdown menus: 'Employee ID', 'Employee Name', and 'Attendance Status', followed by a 'Save' and a 'Reset' button. At the bottom of the page, there's a copyright notice: '© bbnisys Technologies (p) Ltd. Figure 25

2.5 Leave Allowed

In this module user can keep details of leave allowed for each staff. The information needed to keep details of leave allowed is shown in figure 26. After entering leave allowed details, user has to click SAVE button to save the record. If user wants to clear the inputted values, user has to click RESET button.

Figure 26

2.6 Staff Type Insertion

In this module user can keep details of teaching and non-teaching staff. The information needed to keep teaching and a non-teaching staff detail is shown in figure 27. After entering staff type details, user has to click ADD button to save the record. If user wants to update any record, then first user has to click EDIT button and then select the designation which user wants to update. After making all changes, user has to click EDIT SAVE button to save the changes. If user wants to delete any record, first user has to select the designation which user wants to delete, then click on the DELETE button to delete the record.

Figure 27

3. Interactive Time Management Module

In this module there are 6 sub modules. These are-

3.1 Class Master

In this module user can enter/update/delete details of various classes running in the institute. The information needed for class detail is shown in figure 28. After entering class detail, user has to click ADD button to save the record. If user wants to update any record, then first user has to click EDIT button and then select the class name which user wants to update. After making all changes, user has to click EDIT SAVE button to save the changes. If user wants to delete any record, first user has to select the class name which user wants to delete, then click on the DELETE button to delete the record.

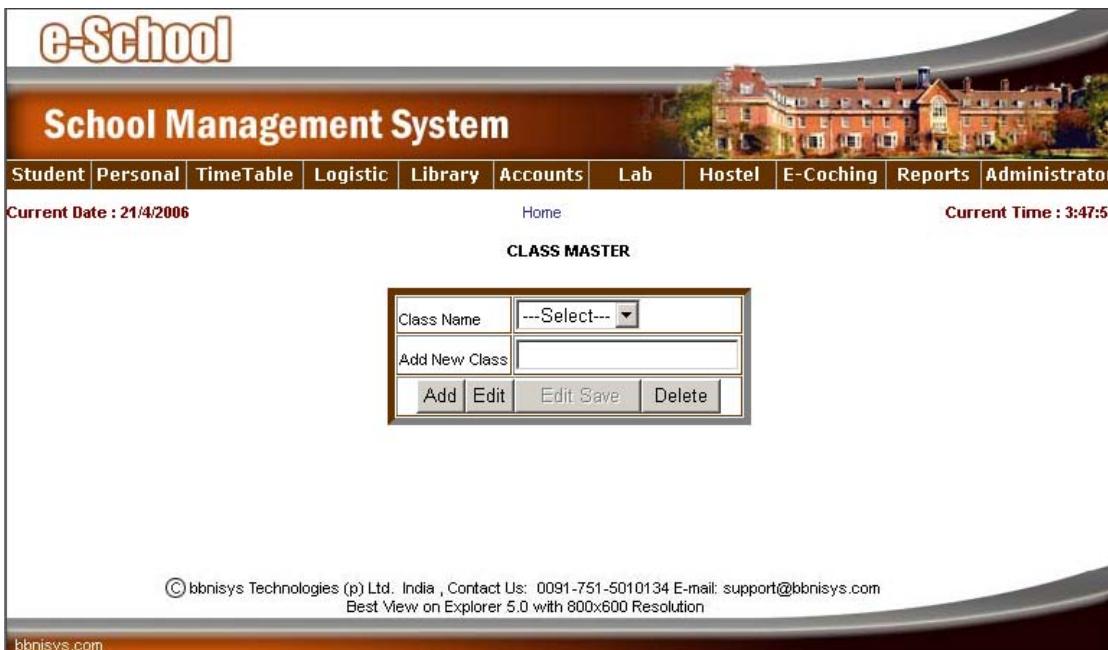

Figure 28

3.2 Class wise Subject Master

In this module user can enter details of subjects in various classes. The information needed for class wise subject detail is shown in figure 29. After entering class wise subject detail, user has to click SAVE button to save the record. If user wants to clear inputted data, user has to click RESET button.

The screenshot shows the 'e-School School Management System' interface. At the top, there is a navigation menu with links: Student, Personal, TimeTable, Logistic, Library, Accounts, Lab, Hostel, E-Coaching, Reports, and Administrator. Below the menu, the current date is listed as 'Current Date : 21/4/2006' and the current time is 'Current Time : 4:1:19'. The main content area is titled 'CLASS WISE SUBJECT INSERTION'. It contains a table with 8 rows and 4 columns. The first column is labeled 'Class Name' and contains a dropdown menu with the option '---Select---'. The subsequent columns are labeled 'Subject 1', 'Subject 2', 'Subject 3', 'Subject 4', 'Subject 5', 'Subject 6', 'Subject 7', and 'Subject 8', each with its own dropdown menu. At the bottom of the table are two buttons: 'Save' and 'Reset'. The footer of the page includes copyright information: '© bbnisys Technologies (p) Ltd. India , Contact Us: 0091-751-5010134 E-mail: support@bbnisys.com' and 'Best View on Explorer 5.0 with 800x600 Resolution'. A watermark for 'bbnisys.com' is visible at the bottom left.

Figure 29

3.3 Subject Master

In this module user can enter/update/delete subjects from subject master. The information needed for subject insertion is shown in figure 30. After entering subject, user has to click ADD button to save the record. If user wants to update any record, then first user has to click EDIT button and then select the subject name which user wants to update. After making all changes, user has to click EDIT SAVE button to save the changes. If user wants to delete any record, first user has to select the subject name which user wants to delete, then click on the DELETE button to delete the record.

The screenshot shows the 'e-School School Management System' interface. The layout is similar to Figure 29, with a navigation menu and current date/time. The main content area is titled 'SUBJECT INSERTION'. It contains a table with 4 rows and 2 columns. The first column is labeled 'Subject Name' and contains a dropdown menu with the option '---Select---'. The second column contains a text input field labeled 'Add New Subject'. At the bottom of the table are four buttons: 'Add', 'Edit', 'Edit Save', and 'Delete'. The footer of the page includes copyright information: '© bbnisys Technologies (p) Ltd. India , Contact Us: 0091-751-5010134 E-mail: support@bbnisys.com' and 'Best View on Explorer 5.0 with 800x600 Resolution'. A watermark for 'bbnisys.com' is visible at the bottom left.

Figure 30

3.4 Teacher Time Table

In this module user can maintain Time Table for every teacher. The information needed to maintain Time Table is shown in figure 31. After entering Time Table details, user has to click SAVE button to save the record. If user wants to clear the inputted values, user has to click RESET button.

The screenshot shows the 'e-School School Management System' interface. At the top, there is a navigation bar with links: Student, Personal, TimeTable, Logistic, Library, Accounts, Lab, Hostel, E-Coaching, Reports, and Administrator. Below the navigation bar, the current date is listed as 'Current Date : 21/4/2006' and the current time is 'Current Time : 4:18:59'. The main content area is titled 'TEACHER TIME TABLE' and contains a form with five fields: Teacher ID (dropdown menu), Teacher Name (text input), Subject (text input), Class (dropdown menu), and Time (text input with a placeholder 'hh:mm:ss'). Below the form are two buttons: 'Save' and 'Reset'. At the bottom of the page, there is a copyright notice: '© bbnisys Technologies (p) Ltd. India , Contact Us: 0091-751-5010134 E-mail: support@bbnisys.com Best View on Explorer 5.0 with 800x600 Resolution' and the website address 'bbnisys.com'.

Figure 31

3.5 Time Table Adjustment

In this module user can make adjustment in the teacher's Time Table. Some teacher's class can be allotted to some other teacher and the detail of this can be maintained. The information needed to make adjustment in Time Table is shown in figure 32. After entering Time Table adjustment details, user has to click SAVE button to save the record. If user wants to clear the inputted values, user has to click RESET button.

The screenshot shows the 'e-School School Management System' interface. At the top, there's a banner with the school's name and a background image of a building. Below the banner is a navigation menu with links: Student, Personal, TimeTable, Logistic, Library, Accounts, Lab, Hostel, E-Coaching, Reports, and Administrator. The current date is listed as 'Current Date : 21/4/2006' and the current time as 'Current Time : 4:26:26'. A 'Home' link is also present. The main content area is titled 'ADJUSTMENT TIME TABLE' and contains a form with fields for Teacher Id (dropdown), Teacher Name, Subject, Class, Time, Depute Teacher ID (dropdown), and Name. There are 'Save' and 'Reset' buttons at the bottom of the form. The footer includes copyright information for bbnisys Technologies (p) Ltd. and a note about best viewing conditions.

Figure 32

3.6 Computer Course

In this module user can enter/update/delete various Computer courses from computer course master. The information needed for computer course insertion is shown in figure 33. After entering computer course, user has to click ADD button to save the record. If user wants to update any record, then first user has to click EDIT button and then select the computer course name which user wants to update. After making all changes, user has to click EDIT SAVE button to save the changes. If user wants to delete any record, first user has to select the computer course name which user wants to delete, then click on the DELETE button to delete the record.

The screenshot shows the 'e-School School Management System' interface. The layout is similar to Figure 32, with a banner, navigation menu, and footer. The main content area is titled 'INSERT COMPUTER COURSE' and contains a form with fields for Computer Course (dropdown) and Add New Computer Course (text input). There are four buttons at the bottom: Add, Edit, Edit Save, and Delete. The footer includes copyright information for bbnisys Technologies (p) Ltd. and a note about best viewing conditions.

Figure 33

4. Logistic (Transportation) Management Module

In this module there are 7 sub modules. These are-

4.1 Oil Master

In this module user can enter/update/delete oil types that are consumed in the institution. Eg. Petrol for Bus, Diesel for Bus, Kerosin for Generator etc. This oil type values will be used in Oil Detail Master Module. The information needed for oil type details is shown in figure 34. After entering oil type, user has to click ADD button to save the record. If user wants to update any record, then first user has to click EDIT button and then select the oil type which user wants to update. After making all changes, user has to click EDIT SAVE button to save the changes. If user wants to delete any record, first user has to select the oil type which user wants to delete, then click on the DELETE button to delete the record.

The screenshot shows a web-based school management system. At the top, there's a banner with the text 'e-School' and 'School Management System'. Below the banner is a navigation menu with links: Student, Personal, TimeTable, Logistic, Library, Accounts, Lab, Hostel, E-Coaching, Reports, and Administrator. The current date is listed as 'Current Date : 19/4/2006' and the current time as 'Current Time : 0:55:38'. A central panel is titled 'OIL GROUP' and contains a form with fields for 'Oil Type' (a dropdown menu showing '--Select--') and 'Add New Oil Type' (an input field). Below these are four buttons: 'Add New', 'Edit', 'Edit Save', and 'Delete'. At the bottom of the page, there's a copyright notice: '© bbnisys Technologies (p) Ltd. India , Contact Us: 0091-751-5010134 E-mail: support@bbnisys.com Best View on Explorer 5.0 with 800x600 Resolution' and the website address 'bbnisys.com'.

Figure 34

4.2 Oil Detail Master

In this module user can enter/update/delete oil name for each oil type. The information needed for oil detail master is shown in figure 35. After entering oil name, user has to click ADD button to save the record. If user wants to update any record, then first user has to click EDIT button and then select the oil type and oil name which user wants to update. After making all changes, user has to click EDIT SAVE button to save the changes. If user wants to delete any record, first user has to select the oil type and oil name which user wants to delete, then click on the DELETE button to delete the record.

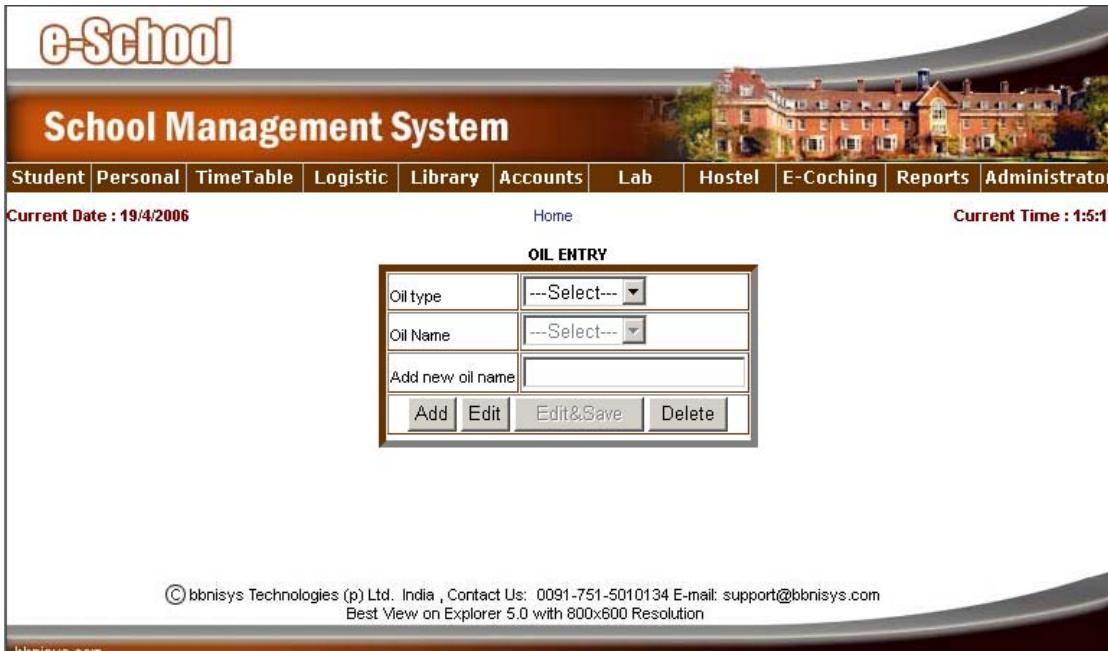

Figure 35

4.3 Route Master

In this module user can insert/edit/delete different routes and the distance of that route from the institution, on which they have provided transport facility. The information needed for route master is shown in figure 36. After entering route name, user has to click ADD button to save the record. If user wants to update any record, then first user has to click EDIT button and then select the route name which user wants to update. After making all changes, user has to click EDIT SAVE button to save the changes. If user wants to delete any record, first user has to select the route name which user wants to delete, then click on the DELETE button to delete the record.

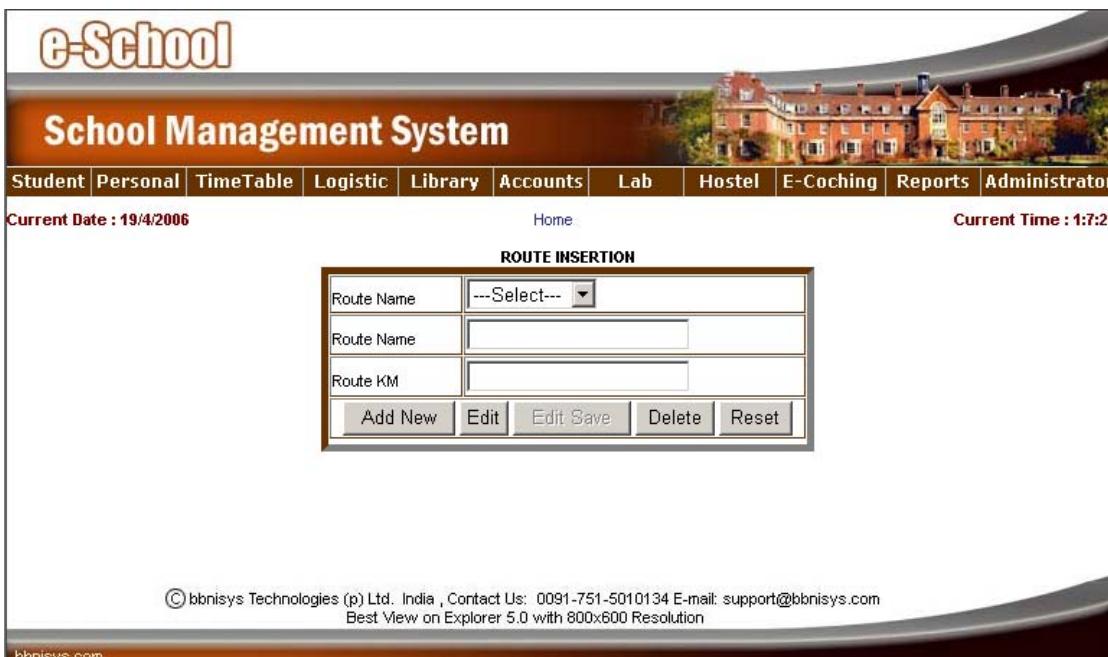

Figure 36

4.4 Vehicle Category Master

In this module user can insert/edit/delete vehicle categories available in the institution, which will be used in Vehicle Entry module. The information needed for Vehicle categories entry is shown in figure 37. After entering vehicle category, user has to click ADD button to save the record. If user wants to update any record, then first user has to click EDIT button and then select the vehicle category which user wants to update. After making all changes, user has to click EDIT SAVE button to save the changes. If user wants to delete any record, first user has to select the vehicle category which user wants to delete, then click on the DELETE button to delete the record.

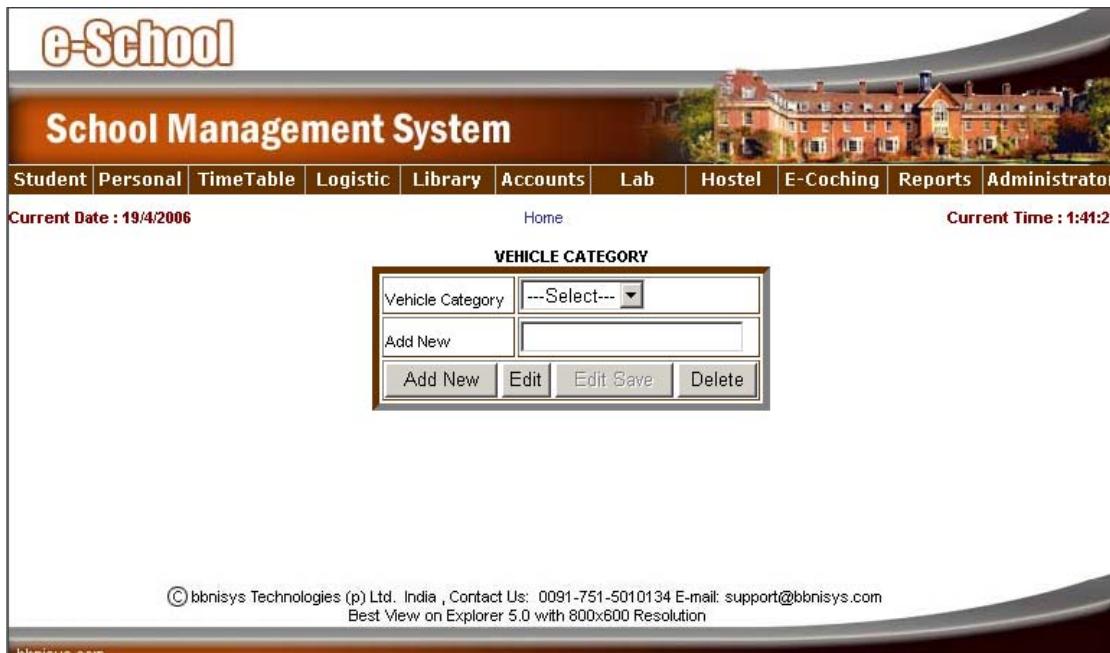

Figure 37

4.5 Vehicle Entry

In this module user can enter details of vehicle available in the institution. For this user has to select the vehicle type, which is available from the vehicle master table. Also user has to select the route on which that vehicle will run. Route is available in route master table. The information needed to enter vehicle details is shown in figure 38. After entering vehicle details, user has to click SAVE button to save the record. If user wants to clear the inputted values, user has to click RESET button.

Figure 48

5.5 Membership

In this module user can save the details of library members. The information needed to make member entry is shown in figure 49. After entering member's detail, user has to click SAVE button to save the record. If user wants to clear the inputted values, user has to click RESET button. SHOW REPORT link shows the list of members entered in the database.

The screenshot shows the 'e-School School Management System' interface. At the top, there's a banner with the school's name and a background image of a building. Below the banner is a navigation menu with links: Student, Personal, TimeTable, Logistic, Library, Accounts, Lab, Hostel, E-Coaching, Reports, and Administrator. The current date is listed as 'Current Date : 22/4/2008' and the current time as 'Current Time : 2:31:21'. A 'LIBRARY MEMBERSHIP' section is displayed, containing a form with fields for Candidate ID, Middle Name, Father's Name, Permanent Address, City, Phone Number, EMail ID, Course, Gender, First Name, Last Name, Mother's Name, Local Address, Pin Code, Date OF Birth, Age, Marital Status, and a 'Show Report' link. The bottom of the page includes a copyright notice for bbnisys Technologies (p) Ltd. and a link to their website.

Figure 49

5.6 Card Generation

In this module user can save the details of card generated for the members. The information needed to make card entries is shown in figure 50. After entering card details, user has to click SAVE button to save the record. If user wants to clear the inputted values, user has to click RESET button. SHOW REPORT link shows the list of card allotted to the members.

The screenshot shows the e-School School Management System interface. At the top, there is a navigation bar with links: Student, Personal, TimeTable, Logistic, Library, Accounts, Lab, Hostel, E-Coaching, Reports, and Administrator. Below the navigation bar, the current date is listed as "Current Date : 22/4/2006" and the current time is "Current Time : 2:36:44".

The main content area is titled "CARD GENERATION". It contains a form with the following fields:

asterisk (*) fields are mandatory	
Candidate ID	40001002
Card Number	<input type="text" value="1"/>
Number OF Card*	<input type="text"/>
Card Generation Date	<input type="text"/>
Name OF Employee	<input type="text"/>
Validity OF Card	<input type="button" value="--Select--"/>
Remark*	<input type="text"/>

At the bottom of the form are two buttons: "Save" and "Reset".

Below the form, there is a copyright notice: "© bbnisys Technologies (p) Ltd. India , Contact Us: 0091-751-5010134 E-mail: support@bbnisys.com Best View on Explorer 5.0 with 800x600 Resolution".

The footer of the page includes the URL "bbnisys.com" and a watermark-like image of a building.

Figure 50

5.7 Issue Book

In this module user can keep record of books issued to the members. The information needed to keep book issue details is shown in figure 51. After entering book issue detail, user has to click SAVE button to save the record. If user wants to clear the inputted values, user has to click RESET button. SHOW REPORT link shows the list of books issued to the members.

The screenshot shows the 'e-School School Management System' interface. At the top, there's a navigation bar with links for Student, Personal, TimeTable, Logistic, Library, Accounts, Lab, Hostel, E-Coaching, Reports, and Administrator. Below the navigation bar, the current date is listed as 'Current Date : 22/4/2006' and the current time as 'Current Time : 2:50:39'. A 'Home' link is also present. The main content area is titled 'BOOK ISSUE FORM' and contains a form for entering book issue details. The form fields include Candidate ID (40001001), Card Number, Book ID (dropdown menu), Book Name, Date OF Issue (calendar icon), Return Date (calendar icon), and Quantity OF Book*. There are 'Save' and 'Reset' buttons at the bottom of the form. A note at the top of the form states 'asterisk (*) fields are mandatory'. The footer of the page includes copyright information for bbnisys Technologies (p) Ltd. India, contact details, and a note about best view on Explorer 5.0 with 800x600 Resolution. The URL 'bbnisys.com' is also visible.

Figure 51

5.6 Return Issue Books

In this module user can keep record of books returned by the members to the library. The information needed to keep return book details is shown in figure 52. After entering book return details, user has to click RETURN button to save the record. If user wants to clear the inputted values, user has to click RESET button.

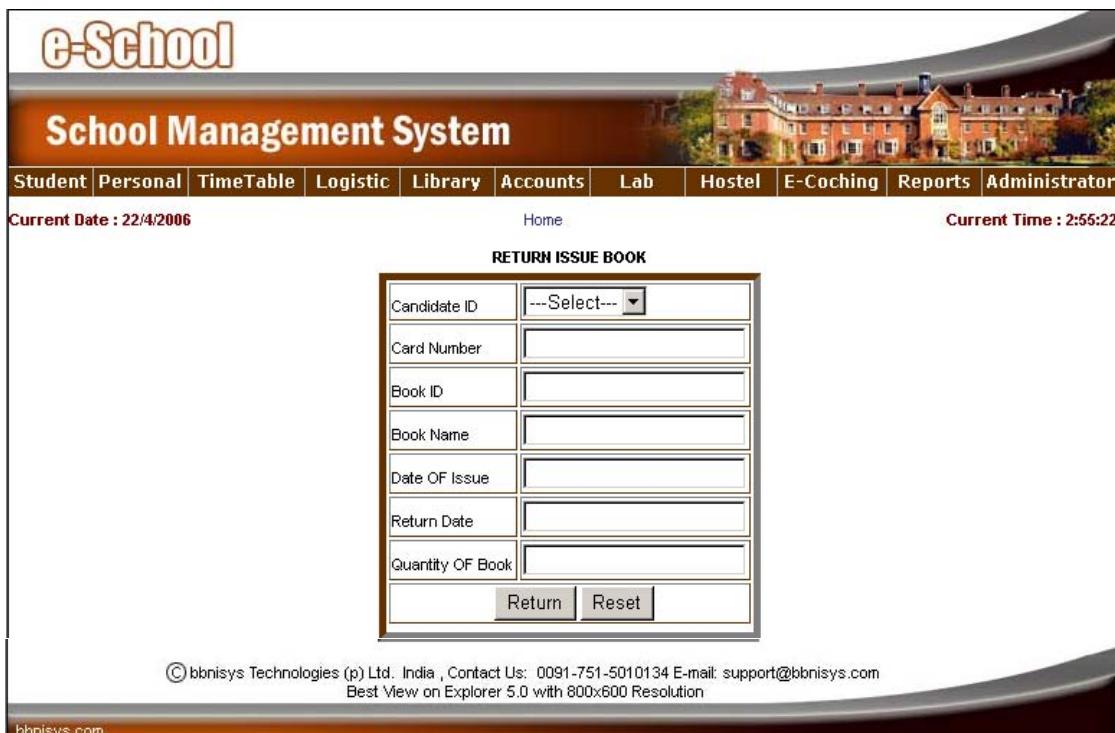

Figure 52

6. Accounts Management Module

In this module there are 8 sub modules. These are-

6.1 Fees Decision

In this module user can add/edit fee details of every class and every stream. The information needed to record Fees of various classes is shown in figure 53. After entering fee details, user has to click SAVE button to save the record. If user wants to edit any record then firstly user has to select class name and stream, then click on EDIT button. Now after making changes, user has to click UPDATE button. If user wants to clear the inputted values, user has to click RESET button.

The screenshot shows the 'e-School School Management System' homepage. At the top, there's a navigation bar with links: Student, Personal, TimeTable, Logistic, Library, Accounts, Lab, Hostel, E-Coaching, Reports, and Administrator. Below the navigation bar, it displays 'Current Date : 22/4/2006', 'Home', and 'Current Time : 3:6:49'. The main content area is titled 'Fees Decision' and contains a form for entering fee details. The form has two dropdown menus for 'Student Class' and 'Stream'. Below these are eight rows for different fees: Development Fees, Sports Fees, Hostel Fees, Exam Fees, Transportation Fees, Books & Stationary Fees, and Employee Name*. Each row has input fields for amount in (Rs.) and a remarks section with a checkbox. At the bottom of the form are 'Save', 'Edit', and 'Reset' buttons. A copyright notice at the bottom left reads: © bbnisys Technologies (p) Ltd. India , Contact Us: 0091-751-5010134 E-mail: support@bbnisys.com Best View on Explorer 5.0 with 800x600 Resolution.

10.2 Role Master

In this module user can add/edit/delete user categories i.e. Role. The information needed to record roles is shown in figure 71. After entering role master details, user has to click SAVE button to save the record. If user wants to edit any record then firstly user has to select role name, then click on EDIT button. Now after making changes, user has to click UPDATE button. If user wants to delete any role, then first user has to select role name and then click on DELETE button.

The screenshot shows the 'e-School School Management System' interface. The layout is similar to Figure 70, with a navigation bar and a 'ROLE MASTER' form. The 'ROLE MASTER' form has a dropdown menu for 'Role Name' (showing '...Select...') and a text input field for 'Add New Role'. Below the form are four buttons: 'Add New', 'Edit', 'Edit/Baue' (which appears to be a typo for 'Edit'), and 'Delete'. The footer of the page includes a copyright notice for bbnisys Technologies (p) Ltd. and a link to their website.

Figure71

10.3 Role Privileges

In this module user can assign privileges to login names. The information needed to assign privileges is shown in figure 72. To enter privileges, first user has to select the role name and then user has to select privileges. After entering privileges, user has to click SAVE PRIVILEGES button to save the record. If user wants to edit any record then firstly user has to select login name, then click on EDIT PRIVILEGES button. Now after making changes, user has to click SAVE EDIT button.

The screenshot shows the 'e-School School Management System' interface. At the top, there's a banner with the school's name and a building image. Below it is a navigation menu with links like Student, Personal, TimeTable, Logistic, Library, Accounts, Lab, Hostel, E-Coaching, Reports, and Administrator. The current date and time are displayed as 'Current Date : 23/4/2006' and 'Current Time : 23:23:2'. The main content area is titled 'ROLES & PRIVILEGES'. It contains three input fields: 'Login Name' (dropdown menu), 'Role Name' (text input), and 'Description' (text area). Below these is a section titled 'Select Modules To Set Privileges' containing checkboxes for various modules: Student Module, Personal Module, Time Table Module, Logistic Module, Library Module, Account Module, Lab Module, Hostel Module, Ecoaching Module, Report Module, and Administrator Module. At the bottom are four buttons: 'Select Privileges', 'Edit Privileges', 'Save Privileges', and 'Save Edit'. A copyright notice at the bottom left reads: © bbnisys Technologies (p) Ltd. India , Contact Us: 0091-751-5010134 E-mail: support@bbnisys.com Best View on Explorer 5.0 with 800x600 Resolution.

Figure 72

10.4 Country, State & City Master

In this module user can enter country, state and city master. The information needed to enter country, state and city is shown in figure 73. To save changes, user has to click on ADD button. To search any country, state or city, user has to type desired value in the text box and then click on SEARCH button. The result will appear on the grid. To show all values user has to click on SHOW ALL button.

The screenshot shows the 'e-School School Management System' interface. At the top, there's a banner with the system name and a background image of a school building. Below the banner is a navigation menu with links: Student, Personal, TimeTable, Logistic, Library, Accounts, Lab, Hostel, E-Coaching, Reports, and Administrator. The current date is listed as 'Current Date : 23/4/2006' and the current time as 'Current Time : 23:43:30'. A 'Home' link is also present. The main content area is titled 'Country, State & City Master Maintenance Form'. It contains a form with three dropdown menus labeled '* Country', '* State', and '* City'. Below the dropdowns are three buttons: 'Add', 'Search', and 'Show All'. At the bottom of the page, there's a copyright notice: '© bbnisys Technologies (p) Ltd. India , Contact Us: 0091-751-5010134 E-mail: support@bbnisys.com Best View on Explorer 5.0 with 800x600 Resolution'.

Figure 73

10.5 Doctor Master

In this module user can enter/edit doctor's detail in doctor master. The information needed to enter/edit doctor's details is shown in figure 74. To enter doctor's detail, user has to click of ADD button after filling all information. To make changes, first user has to select the doctor name which user want to edit. Then click on EDIT button. After making changes, user has to click on UPDATE button. If user wants to clear the inputted values, user has to click RESET button.

The screenshot shows the 'e-School School Management System' interface. At the top, there's a banner with the text 'e-School' and 'School Management System'. Below the banner is a navigation menu with links: Student, Personal, TimeTable, Logistic, Library, Accounts, Lab, Hostel, E-Coaching, Reports, and Administrator. The current date is listed as 'Current Date : 23/4/2006' and the current time as 'Current Time : 23:57:20'. The main content area is titled 'DOCTOR INSERTION' and contains a form with the following data:

Doctor Name	J N SINGH
Add New Doctor Name	
Address	528,MASWANPUR
Country	...Select...
State	...Select...
City	...Select...
Pin Code	208019
Phone (Off)	0512-251998
Phone (Res)	0512-257894
Mobile	09839568478
Phone (Off)	0512-251998
Phone (Res)	0512-257894
Mobile	09839568478

At the bottom of the form are three buttons: Add, Edit, and Reset.

At the bottom of the page, there's a copyright notice: © bbnisys Technologies (p) Ltd. India , Contact Us: 0091-751-5010134 E-mail: support@bbnisys.com Best View on Explorer 5.0 with 800x600 Resolution. The URL bbnisys.com is also present at the bottom left.

Figure 74

11. Reports

In this module there are 11 sub modules. These are-

11.1 Student Report

11.1.1 Student Information Report

In this report, first user has to select the Student ID whose information user wants to see. Then click on SEARCH button. This report shows the details of student having selected student ID. The output screen is shown in figure 75.

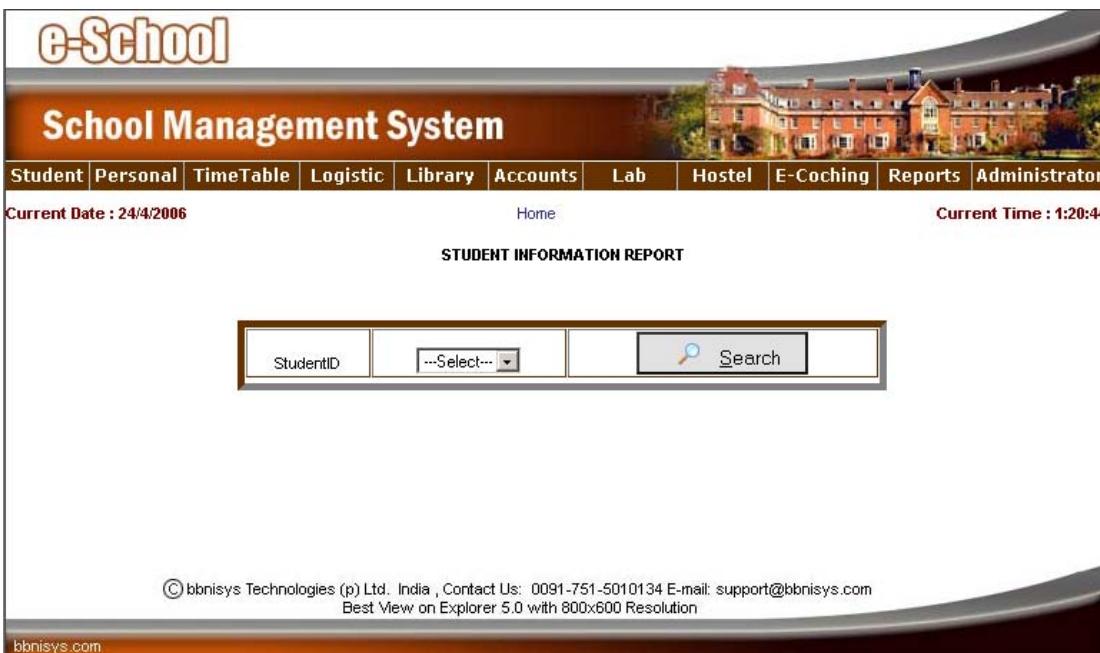

Figure 75

11.1.2 Student Category Report

In this report, first user has to select the Class and Category whose information user wants to see. Then click on SEARCH button. This report shows the list of student belonging to a particular category and in a particular class. The output screen is shown in figure 76.

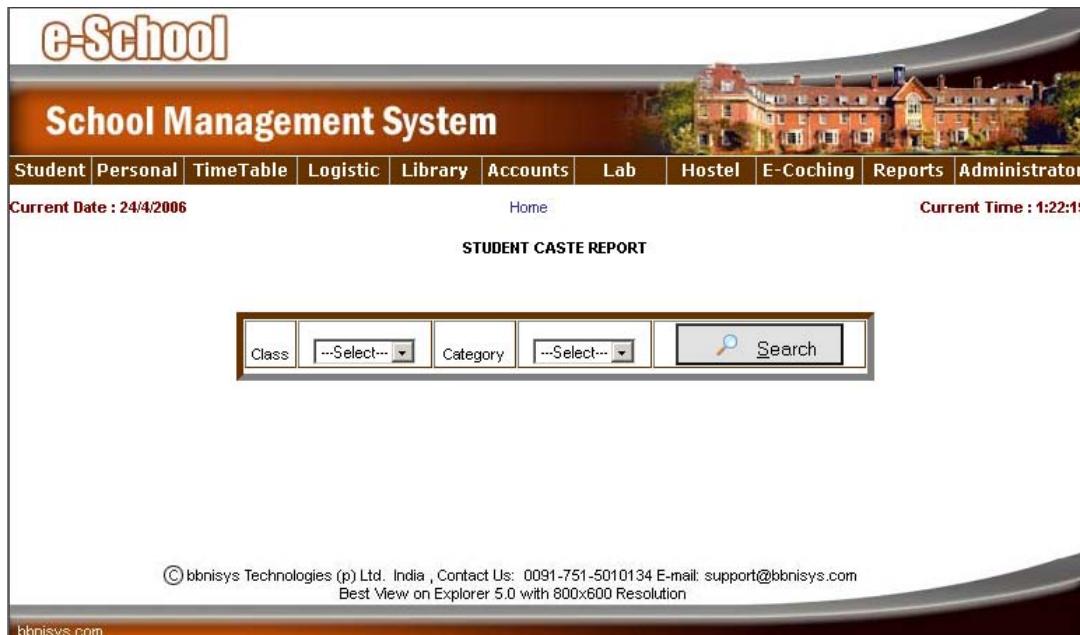

Figure 76

11.1.3 Student Attendance Report

In this report, first user has to select the Student ID whose attendance and leave status user wants to see. Then click on SEARCH button. This report shows the total attendance and leave detail of the student. The output screen is shown in figure 77.

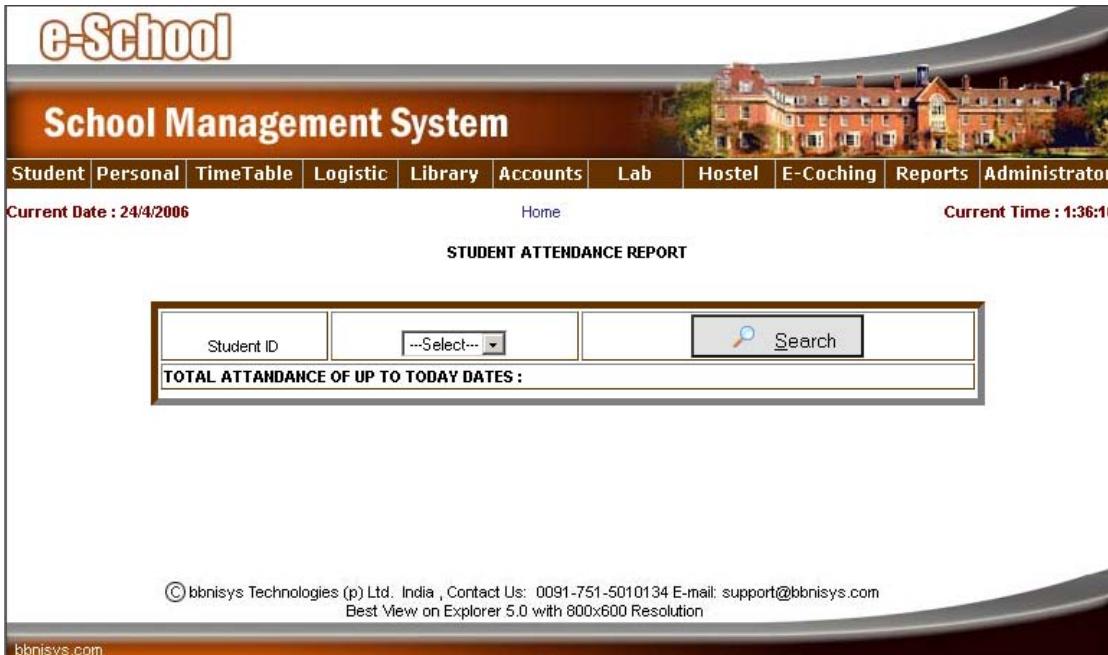

Figure 77

11.1.4 Parents Information Report

In this report, first user has to select the Student ID whose parent's detail user wants to see. Then click on SEARCH button. This report shows the details of student parents. The output screen is shown in figure 78.

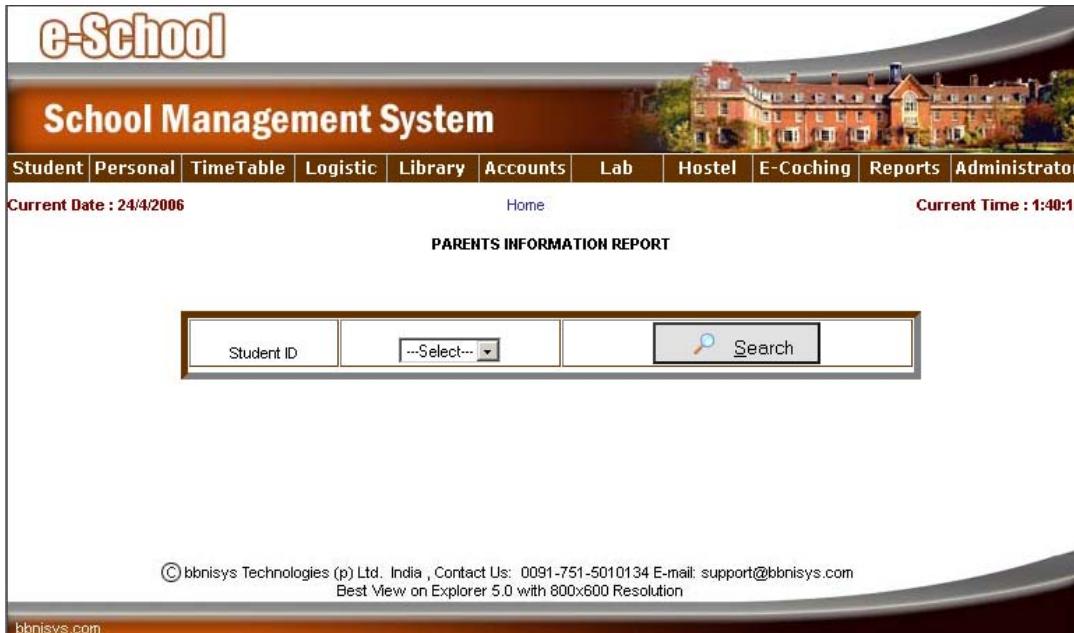

Figure 78

11.1.5 Result Report

In this report, first user has to select the Student ID and Examination. Then click on SEARCH button. If user wants to see how it will look in printout then user can click on PRINT PREVIEW button. This report shows the details of marks in desired examination of desired student. The output

screen is shown in figure 79.

11.2 Salary Report

11.2.1 Complete Salary of Staff Report

In this report, user has to enter the dates from which user wants to see the salary and up to what date user wants to see the salary. Then click on SEARCH button. This report shows the complete salary details of all employees. The output screen is shown in figure 80.

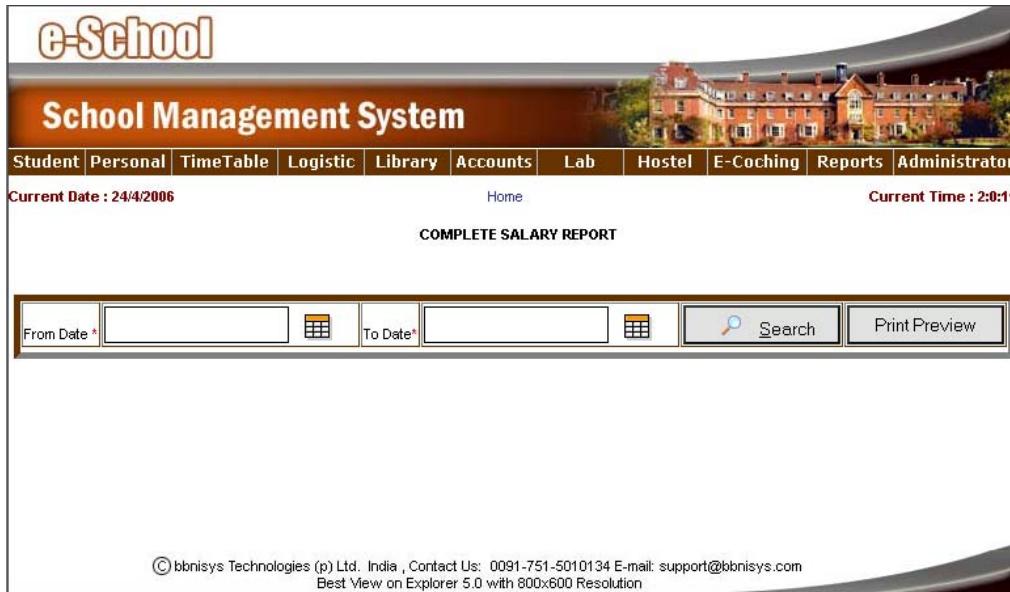

Figure 80

11.2.2 Pay Slip Report

In this report, user has to enter the dates from which user wants to see the salary and up to what date user wants to see the salary. Also user has to enter employee Name. Then click on SEARCH button. This report generates the pay slip of selected candidates. The output screen is shown in figure 81.

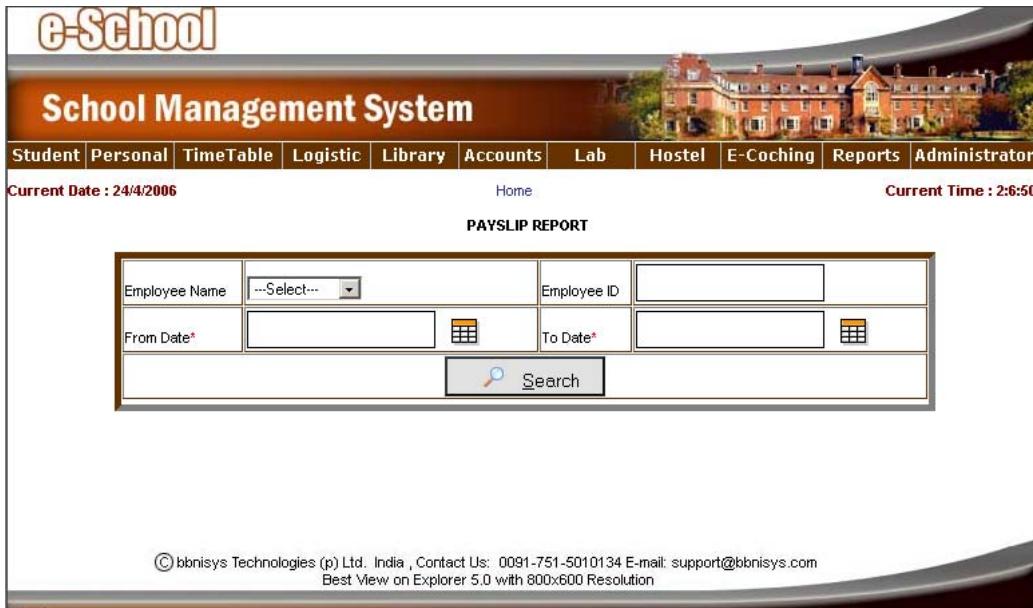

Figure 81

11.2.3 Salary Sheet Report

In this report, user has to enter the dates from which user wants to see the salary sheet and up to what date user wants to see the salary sheet. Then click on SEARCH button. This report generates the Salary Sheet. The output screen is shown in figure 82.

Figure 82

11.2.4 Tax Calculation Report

In this report, user has to enter the dates from which user wants to see the tax calculation report and up to what date user wants to see the tax calculation report. Then click on SEARCH button. This report generates the Tax Calculation sheet. The output screen is shown in figure 83.

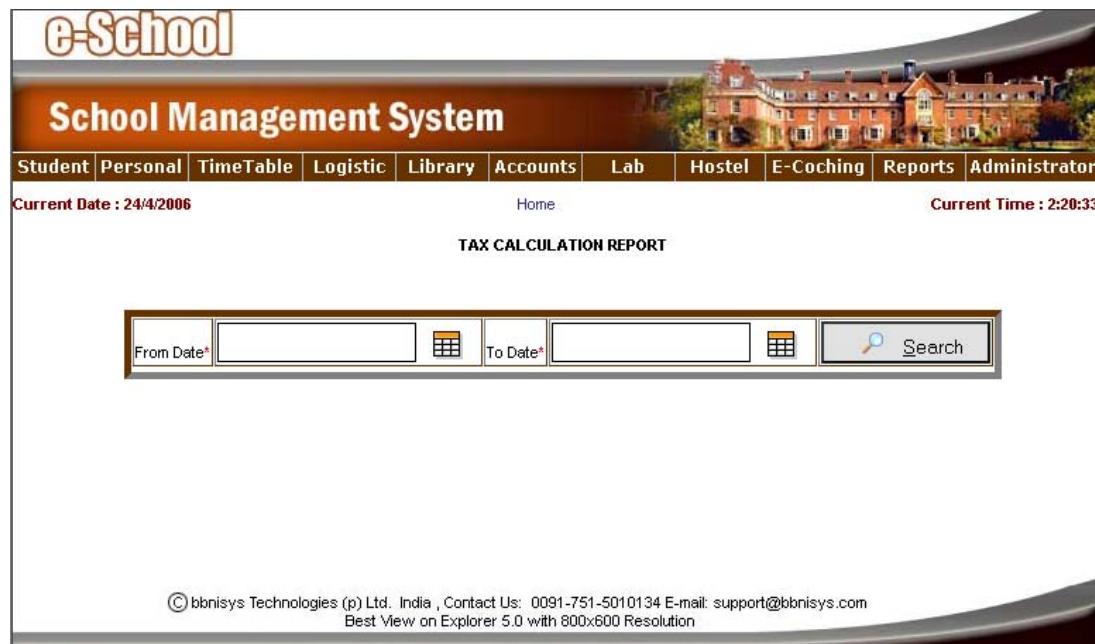

Figure 83

11.2.5 Staff Performance Report

In this report, user has to enter the teacher ID, Subject and Class. Then click on SEARCH button. This report generates the Teacher Performance Report. The output screen is shown in figure 84.

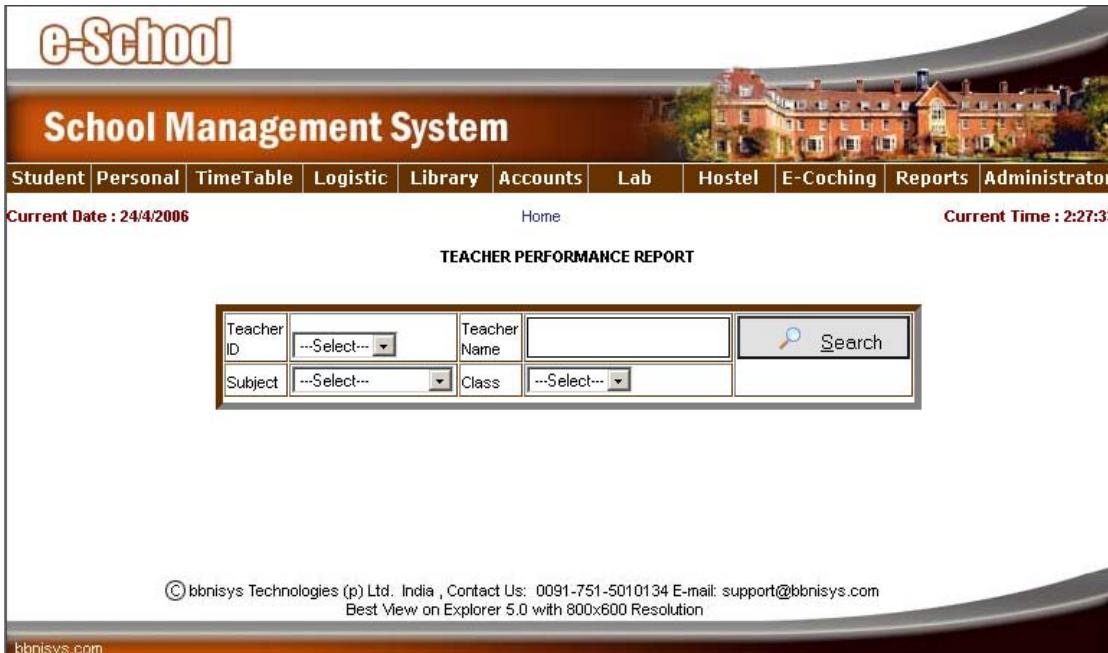

Figure 84

11.2.6 Staff Leave Report

In this report, user has to select the employee ID. Then click on SEARCH button. This report generates the Staff Leave Report. The output screen is shown in figure 85.

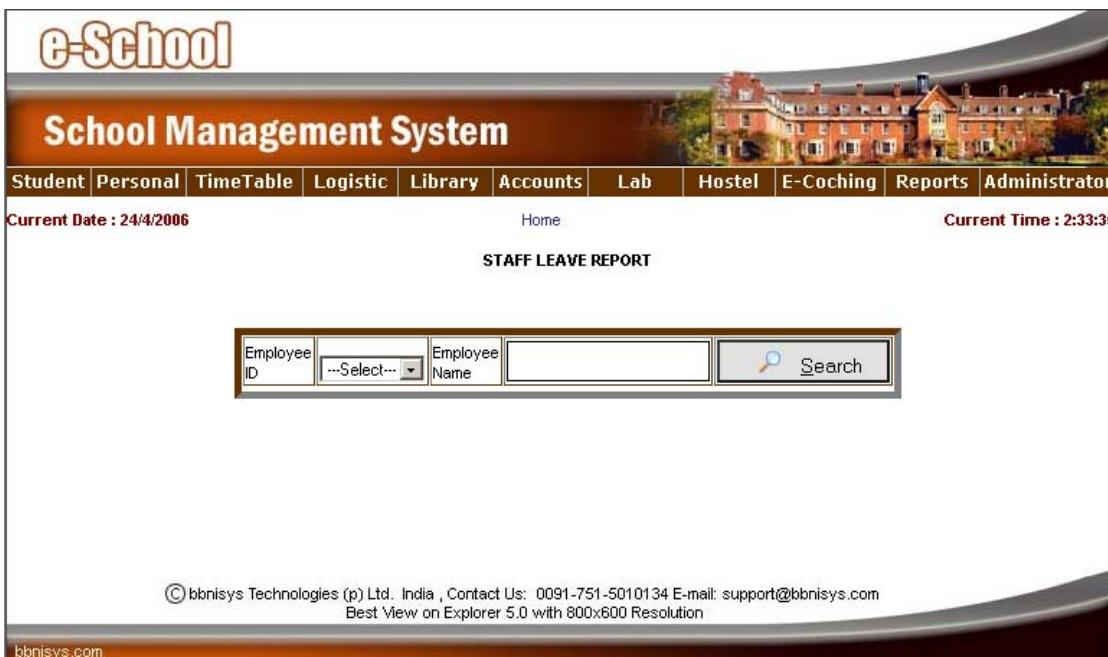

Figure 85

11.3 Time Table Reports

11.3.1 Class wise Subject Report

In this report, user has to select the class name, whose subject list user want to see. Then click on

SEARCH button. This report shows the subject list of selected class. The output screen is shown in figure 86.

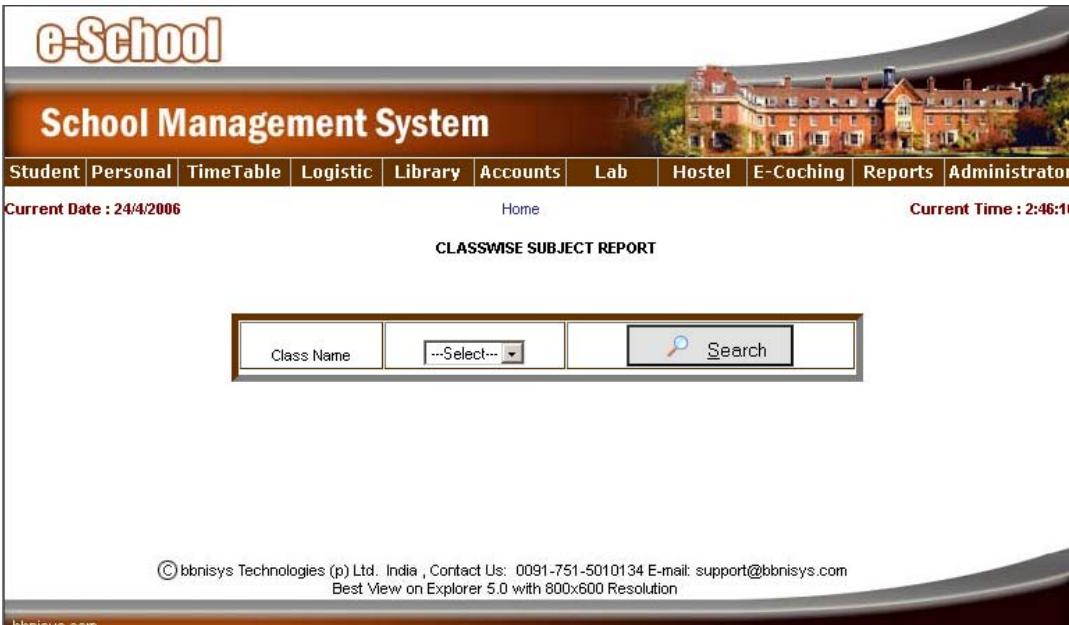

Figure 86

11.3.2 Teachers in Staff Room Report

In this report, user has to select the staff type. Then click on SEARCH button. This report shows the no. of staff present in the staff room. The output screen is shown in figure 87.

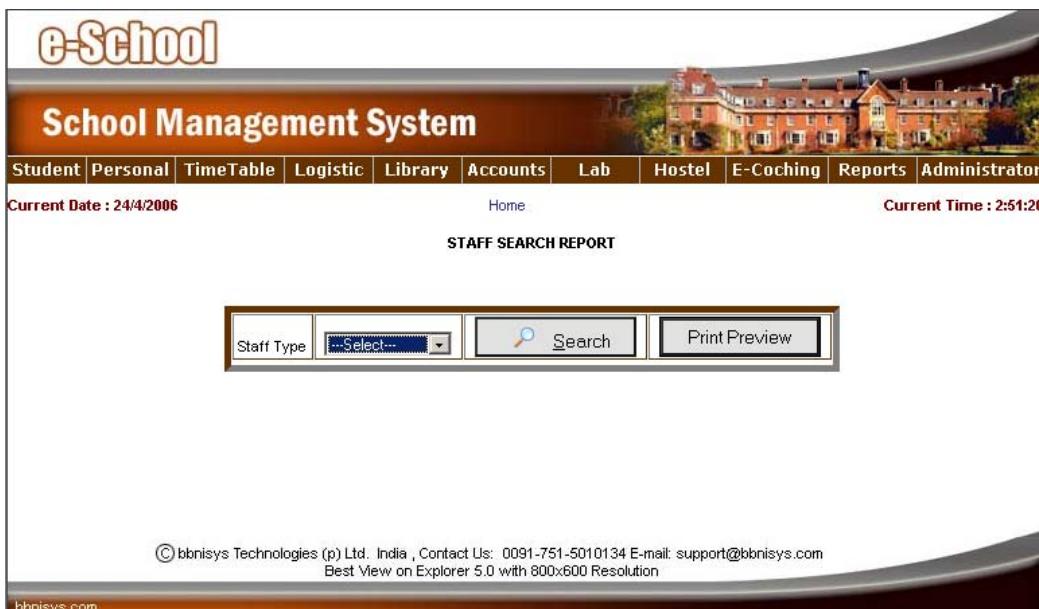

Figure 87

11.3.3 Teachers in Class Room Report

In this report, user has to select the class name. Then click on SEARCH button. This report shows the name of staff taking classes. The output screen is shown in figure 88.

Figure 88

11.3.4 Teachers Time Table Report

In this report, user has to select the staff type. Then click on SEARCH button. This report shows the teachers Time Table. The output screen is shown in figure 89.

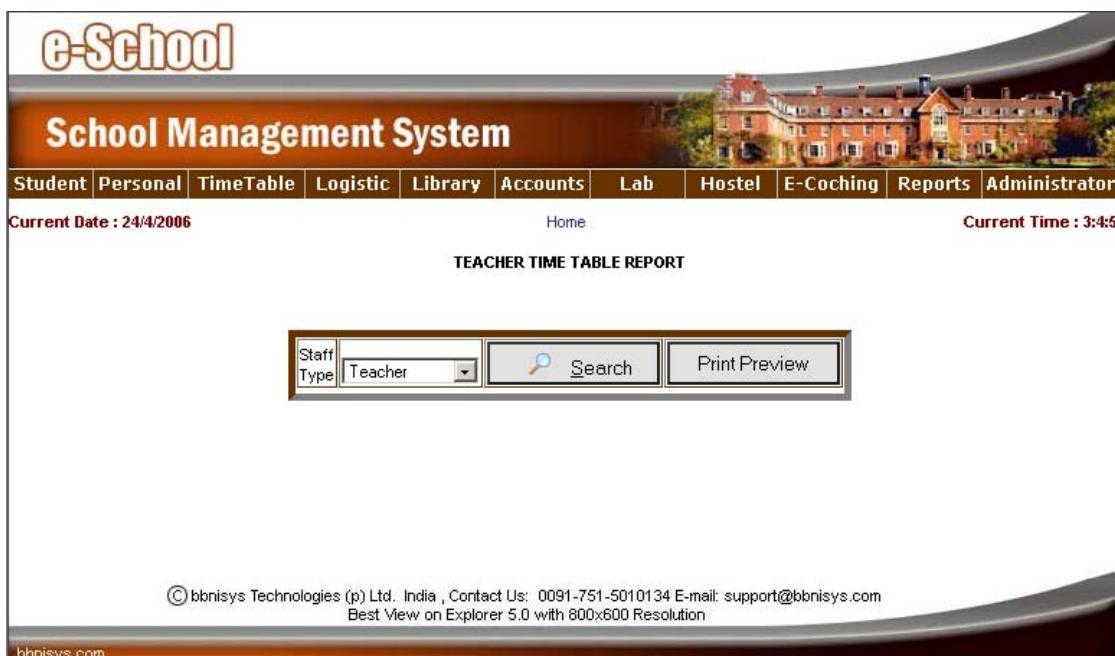

Figure 89

11.3.5 Class Time Table Report

In this report, user has to select the class name. Then click on SEARCH button. This report shows the class wise subject report. The output screen is shown in figure 90.

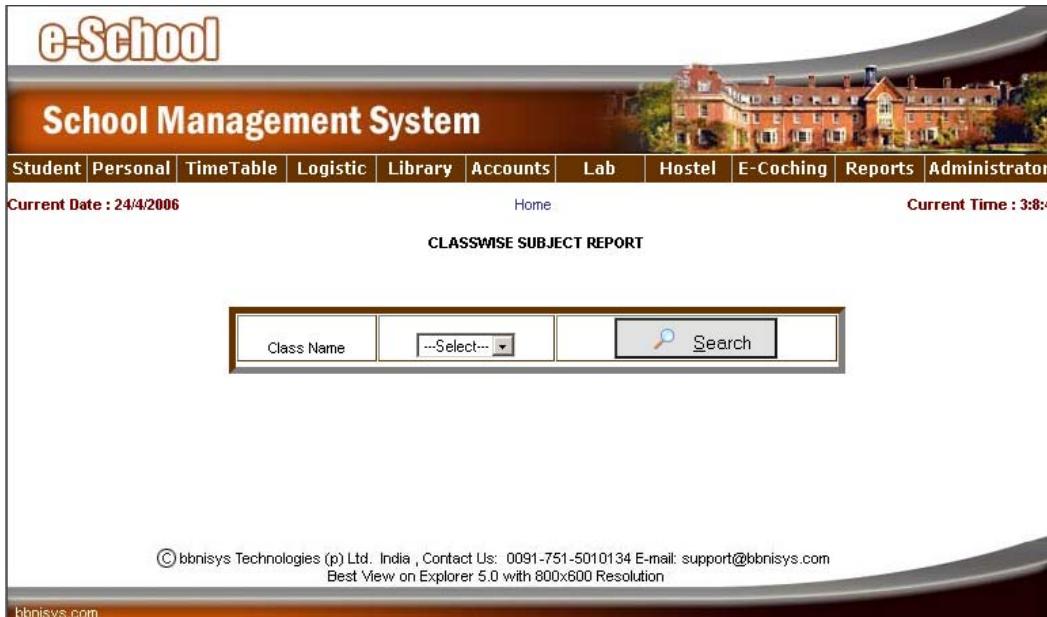

Figure 90

11.3.6 Holiday List Report

In this report, user has to select the holidays. Then click on SHOW button. This report shows the Holiday List Report. The output screen is shown in figure 91.
